

STATE OF LOUISIANA
LICENSING BOARD FOR CONTRACTORS

**Study Sheet for
7-45 Pipe Work (Water Lines)**

The examination for 7-45 Pipe work (Water Lines) is a 50 question, multiple choice examination covering all aspects of installation, repair and maintenance of municipal water distribution lines. The examination is based on general knowledge of work in this field. However, the following books may be helpful to candidates preparing for the examination. These references are only suggestions and do *not* necessarily contain all information needed to perform this trade. Relevant information in some of these books may overlap the content of some of the other books on this list. These books may possibly be obtained from the publishers or from a library, book distributor or book store. Libraries can often obtain these or similar publications through the services of Inter-Library Loan.

AWWA Standard for Installation of Ductile-Iron Water Mains and Their Appurtenances; American Water Works Association; Denver, CO.

Cleaning and Lining Water Mains, Manual of Water Supply Practices, AWWA M28; American Water Works Association; Denver, CO.
